## Business Beyond Borders at TEXWORLD

## Success Stories

### Diana Svensson - Peek-A-Poo

"I like the BBB matchmaking programme very much, it provides valuable opportunities for expanding one's business"

Among many other participants, Peek-A-Poo's CEO and Founder, Diana Svensson, met with representatives from SIMCO INTL during the Business Beyond Borders event at TEWORLD Paris, kept in touch and formed partnership agreement with them. "We are happy to be a part of the Peek-A-Poo brand as a production team. After our first meeting at Texworld, we immediately decided that we need to work together, and that we would create amazing results by combining our craftsmanship and their unique design!"

Peek-A-Poo also struck a partnership agreement with AAMA IMPEX: "Due to a last-minute cancellation from another company, we started to talk in an ad-hoc way. When we realised one side was looking for cashmere suppliers and the other was supplying it, it was like it was all meant to be."

Peek-A-Poo was founded in November 2016 in Stockholm, Sweden. The idea came after Diana Svensson noticed a gap in the market for high-quality children's clothing. After her daughter's birth, she started designing and manufacturing clothing items for her daughter; other people started noticing the exceptional design and quality of her products shortly after. This soon turned into the 'Peek-A-Poo' brand as it is nowadays; the company is currently overseeing the production of six unique collections for children, as well as companion pieces for pets.
